### Wouldn't Taste the beer

Emil Leupold, a groceryman, who is accused of selling liquor without a license, was on trial in Justice Ross's court yesterday. Ora Cresap, a patrolman, testified that March 29 he bought four bottles of beer at Leupold's store. Leupold declared that the bottles did not contain beer. The bottles were placed in evidence.

"The only way to find out whether that is beer is to taste it," said Justice Ross, as he held up one of the bottles. "Officer Cresap, taste this."

"Can't do it, your honor. Been 'on the wagon' three years," replied the officer.

"That so? Mr. McCandless, you make the test."

"Nope," said McCandless, assistant prosecuting attorney, "I refuse to drink warm beer. Instruct the clerk to taste it."

But the clerk was also temperate.

"Better try it yourself, Judge," McCandless then suggested.

"Never drink while working," said the justice. Any one here willing to taste this stuff?"

None of the courtroom loungers volunteered.

"First time I ever heard of beer being refused around the courthouse," said the judge. He took the case—the legal case—under advisement until Wednesday.—Kansas City Times.

### Church Rallies

Rev. Isaac Mills informs us that the Missionary Baptist church (col) of this city will have a rally on May 19th. The Pinnacle Gap church will have a rally on May 26th. Both rallies are for the object of raising funds for the church and an urgent invitation is extended to their friends to come out and assist them.

He also asks us to announce the annual meeting of the Central District Ministerial Deacons' Union at Rocheport, Mo., on May 27 and 28 at which there will be a Bible conference.

### Wireless Message on Atlantic Coast Received in California

On Sunday, March 10, A. J. Millison, the operator at the wireless telegraphy station on Point Loma, in southern California, observed his apparatus intercepting a message.

On investigation he ascertained that a message was being sent from Washington, D. C., to Pensacola, Fla. He adjusted his instruments, which are the most delicate used by the United States government, and caught the whole message. At about the same time part of a message to the battleship "Connecticut" from Washington was clearly read on the instruments at Point Loma.

Highly gratified, the operator sent messages to the Atlantic coast, and received answers from the operators at Washington and Pensacola. Later he wrote out copies of the messages that he intercepted on the Atlantic coast and sent them, with letters, to the operators there.

The distance from Pensacola to San Diego in an air line is about 1,800 miles, and from Washington to San Diego is about 2,400 miles. The matter has been reported to Commander H. C. Gearing, Chief of the Equipment Department at Mare Island navy yard, California. The message sent by the operator at Point Loma to Washington were only faintly recorded on the instruments, but the messages between Washington and Florida and part of a message to the battleship "Connecticut," 600 miles out in the Atlantic Ocean, were recorded clearly. The new apparatus is partly the invention of Mr. Millison, and has been installed in the Point Loma station only a few months. Some time ago the Point Loma operator succeeded in communicating with Tacoma, Wash.—Scientific American.

### A Surprise

Capt. W. C. Todd received a big surprise Saturday evening. He was telling Paschal Peavler of a bargain he was offering in a brand new saddle. Mr. Peavler was looking for just such a bargain and he accompanied Mr. Todd to his home. Imagine their surprise to find that the fenders (the big "flaps") had been cut off by some thief—no doubt for shoe soles.

### Marshall Bankers Lose Heavily

The Marshall bankers went to the M. V. C. campus by request of the county court Saturday afternoon to head off a run on their institutions but their calculations went wrong and they were heavy losers.

Believing that they could play ball they accepted a challenge from the county court house officials and the game was called at three. Whether the politicians turned their political tricks on the plutocrats or whether the money lenders have grown fat and lazy has not been decided, but the "runs" were all against them and the "official statement" showed they lost in a score of 31 to 7. Stock in the Marshall Bankers Baseball Association has taken a terrible slump.

### Low Rates to Los Angeles

Not only at the present time of extremely low colonist rates to Pacific Coast points but also in May and June the Chicago & Alton will offer tempting rate bargains to California. Several important conventions will be held in Los Angeles in May and June and a rate of \$52.55 for the round trip open to the public, will be in effect. Call upon or write to me for full particulars.

### Splendid Entertainment

The William Jewell Quartette at the Baptist church Friday night gave our people a genuine treat. Besides the singing, Miss Guilla Myrl Adams gave some excellent readings. They were accorded a good house. We hope they will return soon again.

### M. V. C. Lost Debate

The M. V. C. boys had a break in their run of victories Friday night when Park College defeated them in the debate that has been looked forward to with much keen interest. Our boys have been very successful so far and take this defeat rather seriously.

### Found Big Cannon Ball

While digging a place for a sweet potato bed, Stephen Tuders, of East Gordon St., found a 16 pound cannon ball recently. He values his find very highly, because he says it's the first he's handled since '65.

### Creamery Record Broken

The Marshall Creamery has a way of testing the amount of cream in milk brought them and until recently Nick Stedem has held the record by furnishing milk with 6.6 per cent cream. He was recently beaten by Dr. W. H. Black with a 6.7 per cent of cream. Last week E. B. Clawson made the remarkable record of 11 per cent cream, thus not only breaking the local record but probably the state record. Mr. Clawson has no doubt a "rich" cow.

There are many kidney remedies but few that accomplish the result. "Pineules" is a kidney remedy that contains no alcohol or opiates of any kind, complies with the National Pure Food and Drugs Law, guaranteed to give satisfaction. Thirty day treatment for \$1.00. ### Rural Carriers' Salaries to be Increased

Washington, April 27.—The rural mail carriers of the United States have upward of \$6,000,000 coming to them in the way of increased compensation for their services. The distribution will begin when the increased appropriation made by congress for this purpose becomes available on July 1. The calculations incident to a proportionate distribution of the amount to increase the maximum salaries of rural carriers to not exceeding \$900 per annum necessarily required most careful consideration.

In using a cough syrup, why not get the best? One that comes highly recommended is Bees Laxative Cough Syrup, contains Honey and Tar and a superior to other cough syrups in many ways. Children always like it because it contains no opiates, is laxative and is guaranteed to give satisfaction of your money refunded. Try it. Sold by P. H. Franklin.

### The Texas Way

Temple, Tex., April 26.—James Todd and Charley Jones of this county were ardent suitors for the hand of Mrs. Mary Reed, a pretty young widow of this city. It took Mrs. Reed some time to choose between them, but she finally decided to marry Todd. Her marriage to Todd took place just two weeks ago, and four days later Todd died suddenly.

The bereavement of the widow, however, was of short duration. Jones, her late husband's former rival, called and offered his sympathy. She soon discovered that her love for Jones was greater than her sorrow for Todd, and when the surviving rival proposed an immediate marriage she consented, and they were married to-day, Mrs. Jones casting off her mourning garb for bridal robes.

### A Hard Debt to Pay

"I owe a debt of gratitude that can never be paid off," writes G. S. Clark of Westfield, Iowa, "for my rescue from death, by Dr. King's New Discovery. Both lungs were so seriously affected that death seemed imminent, when I commenced taking New Discovery. The ominous dry, hacking cough quit before the first bottle was used, and two more bottles made a complete cure." Nothing has ever equalled New Discovery for coughs, colds and all throat and lung complaints. Guaranteed by P. H. Franklin druggist. 50c and \$1.00. Trial bottle free.

### Spangler Seated

The city council Monday night took up the election contest between J. E. Spangler and Mr. Conway. After debating the question till late, it was decided the council had no jurisdiction in the matter and Mr. Spangler was called in and given a certificate of election.

Hard on Cigarettes.	
"Cigarette smokers not enrolled."	
This is printed on the cards of a West Side commercial college.	
"I won't have a cigarette fiend in my school," the president of the college said yesterday. "I will not associate with them myself and I won't ask our young women students or instructors to come in contact, in any way, with them. They can't learn the business branches taught here, and even if they could we couldn't find any business men who would employ them. I believe cigarettes have ruined more young men than all other vices combined.—Kansas City Star.	
He Fought at Gettysburg	
David Parker, of Fayette, N. Y., who lost a foot at Gettysburg, writes: "Electric Bitters have done me more good than any medicine I ever took. For several years I had stomach trouble, and paid out much money for medicine to little purpose, until I began taking Electric Bitters. I would not take \$500 for what they have done for me." Grand tonic for the aged and female weaknesses. Great alterative and body builder: sure cure for lame back and weak kidneys. Guaranteed by P. H. Franklin druggist. 50c.	
Tin-Can Day	
Trenton, Mo., April 27.—A novel enterprise for the promotion of civic improvement was fostered by the Trenton Clean City club, backed by clubwomen here to-day. Partly to get rid of rubbish in alleys and streets and more to attract attention to the clean city movement, Trenton boys were offered 25 cents a hundred for old tin cans, delivered to the committee.	
The cans were received at a prominent point in the business section, and for hours the streets were jammed with boys, cans and spectators. One hundred and thirty boys brought in over 78,000 cans and received nearly \$200 in payment.	
The club expects the tin-can day to be the pioneer event of a general movement in smaller cities. Clubs in several other towns have already shown a disposition to try the scheme, which was an unqualified success.

### An Apology

We have received several complaints recently on the appearance of the paper. We last summer purchased a new press and promised our readers a nice clean print. Instead of an improvement the new press has been a disappointment, and unless the press "makes good" in a few weeks it will land in court. In the meantime we thank our readers for their patience and hope they will give us several months more to show what we can do. We have reference to the creases and poor print in places.

### A Significant Prayer

"May the Lord help you make Bunker's Army Salve known to all," writes J. G. Jenkins, of Chapel Hill, N. C. In quick reply the pain out of his shoulder and arm is in a few days gone. Bunker's Army Salve is a sure cure for all kinds of rheumatism, neuralgia, and all other pains in the joints and muscles. It is a powerful anti-inflammatory and analgesic. Sold by P. H. Franklin.
